

MURTAZO XURRAMOV

Backend Engineer | Python Developer | FastAPI Specialist | Building Scalable Systems

murtazox04@gmail.com • <https://www.linkedin.com/in/murtazo-xurramov/> • Uzbekistan

Summary

Dedicated backend developer with a strong background in performance enhancement and system optimization through cutting-edge technologies. Proven success in transferring applications to more efficient frameworks, leading teams to improve productivity, and delivering high-quality user experiences. A commitment to driving positive change and fostering collaborative environments is evident through experiences that align closely with an organization focused on impactful solutions and innovative growth.

Key Achievements

Boosted Deployment Efficiency

Increased deployment efficiency by 20% through streamlined backend processes.

Optimized Currency Conversion

Enhanced user experience by 25% with real-time currency conversion.

Led Team to Success

Improved team productivity by 30% via effective task management.

Developed Interactive Bots

Delivered Telegram bots increasing user interaction by 30%.

Experience

Imkon Uzbekistam

Tashkent

Software Engineer Backend

07/2024

- Optimized performance and scalability by migrating applications from the synchronous Python Django framework to the asynchronous FastAPI framework.
- Enhanced data retrieval efficiency by replicating core database data in MongoDB, enabling asynchronous endpoints for streamlined access to essential information.
- Increased system performance by 30% through optimizing database queries and refactoring legacy code.

Surkhandarya

Surkhandarya

Python Backend Engineer, and Team Lead

03/2023 - 03/2024

- Developed the backend infrastructure for multiple applications, enhancing system performance and user experience
- Streamlined the deployment process of backend components onto servers, improving deployment efficiency by 20%
- Led the overall team, fostering a collaborative environment and improving team productivity by 30% through effective task delegation and time management

Fiverr

Tashkent

Self-employed, and Freelance Software Engineer

11/2022 - 02/2024

- Acquired and applied skills in client interaction, project management, and development, leading to a 20% increase in client satisfaction and project delivery efficiency
- Developed several Telegram bots for different applications such as online dating, Marvell Learning Center, currency conversion, and an online store, enhancing user interaction and real-time responses by 30%
- Created a Telegram bot capable of converting four different currencies in real time using data from the National Bank of Uzbekistan, providing users with accurate and instant currency conversion, improving user experience by 25%

Ministry of Youth Policy and Sports Development

Tashkent

Intern Backend Engineer

06/2022 - 09/2022

- Developed a comprehensive API strategy to streamline communication between systems, resulting in a 20% increase in efficiency and reducing development time by 30%
- Implemented project management best practices using GitHub, leading to a 15% improvement in team collaboration and project delivery timelines
- Collaborated with cross-functional teams to develop the backend of the Digitization and Automation Center website, utilizing Python, Django, and DRF technologies
